Division of Land/Noise Pollution Control  
ILLINOIS ENVIRONMENTAL PROTECTION AGENCY

Springfield, Illinois 62706

Dear Mr. Cavanagh:

Enclosed are two John Sexton Sand and Gravel Corporation's NPDES applications, dated February 12, 1980, for the discharge of precipitation runoff at the Des Plaines/Sexton and the Hinsdale/Sexton Landfills.

We have been advised that because of the nature of the discharges (storm water) and because these disposal sites are being operated under the authority of Illinois permits, such NPDES permits may not be required. Should that be your determination, a letter to that effect would be appreciated.

Also enclosed is a copy of a letter dated February 2, 1978, from Mr. Thomas G. McSwiggin, Manager, Permit Section, Division of Water Pollution Control, which indicated that no NPDES permit was required for the Lemont/Sexton Landfill (IL Permit No. 1976-12-DE.) Because there is no indication of a copy being supplied to the Division of Land/Noise Pollution Control at that time, you may want to place this copy in your files.

Very truly yours,

JOHN SEXTON SAND AND GRAVEL CORP.

Eldredge Engineering Associates, Inc.  
2625 Butterfield Road  
Oak Brook, Illinois 60521

Dear Mr. Eldredge:

We are in receipt of your letter dated January 24, 1978. We have reviewed your letter and find that an NPDES Permit is not required under Illinois Pollution Control Board, Chapter 3, Rules and Regulations, Sub-part A for the facilities.

[An NPDES Permit is not required for a properly operated landfill.]

This notice of no permit required constitutes final action by this Agency.

Should you have any questions or comments regarding the above, please contact Environmental Protection Engineer Dale R. DeClue, located at the indicated telephone number above.

Very truly yours,
